

Sri Murugan Industries

“Revolutionizing efficiency in manufacturing and production processes”

About Us

Sri Murugan Industries is a leading manufacturer of precision-engineered timer pulleys, gears, and power transmission components. With decades of expertise, we deliver high-performance, tailored solutions to meet the diverse needs of industries such as automotive, industrial machinery, textiles, and robotics.

We provide innovative, reliable solutions that boost mechanical efficiency and performance. By leveraging advanced engineering, cutting-edge technology, and skilled craftsmanship, we consistently exceed expectations in quality, durability, and precision.

Types of Gears

Founded in 1994, Sri Murugan Industries began as a small workshop specializing in timer pulleys and gears. Our founder, Srinivasan, recognized a demand for high-quality components in the automotive and industrial sectors.

In 2006, we expanded our capabilities by investing in advanced machinery, allowing us to offer custom-designed gears. This innovation led to industry recognition and key partnerships.

By 2014, we reached international markets, becoming a trusted supplier worldwide. Today, we operate from a state-of-the-art facility, continuously innovating to meet our customers' needs while upholding our core values of quality and integrity.

Vision

To be the top global provider of precision timer pulleys and gears, setting the standard for innovation and efficiency.

Mission

To create high-performance, reliable solutions that drive mechanical efficiency through cutting-edge technology and expert craftsmanship.

Core values

CRITE - Customer focus, Reliability, Innovation, Teamwork, Excellence

Why Choose Us ?

Precision Engineering:

We specialize in crafting high-quality timer pulleys and gears using advanced manufacturing techniques, ensuring precise fit and reliable performance.

Technology

We leverage cutting-edge CNC machines and quality control systems to ensure every component meets the highest standards of accuracy and quality.

Custom Solutions

Whether you need standard or custom-designed components, we deliver tailored solutions to meet your specific industrial requirements.

On-Time Delivery

We are committed to delivering your products on time, every time, so your production processes can run smoothly without delays.

Top-Grade Materials:

Our products are made from premium materials that offer durability, resilience, and longevity, even in the most demanding environments.

Cost-Effective

Our efficient production processes allow us to offer competitive pricing without compromising on quality.

Experienced Team

With years of expertise in the industry, our skilled engineers and technicians understand the intricacies of gear and pulley manufacturing.

Customer Support

From concept to completion, our dedicated support team is with you every step of the way, providing technical assistance and addressing your concerns.

What We Offer?

- **Cutting Edge Design** - Engineered for maximum efficiency.
- **Versatile Selection** - Tailored timer pulleys and gears for any industry
- **Eco-Friendly Production** - Sustainable practices without compromising quality.
- **Exceptional Customer Care** - Personalized support and expert solutions designed to empower your success and drive results.
